

SAFETY DATA SHEET (SDS)

COLLAGENE Land Art Liquid 500ML for dogs and cats

NN.V1S4

1. IDENTIFICATION

Product name: COLLAGENE Land Art Liquid 500ML for dogs and cats, **NN.V1S4**

Use: Animal health product

Restrictions: for manufacturing purposes only.

Supplier: Suppléments Aromatik Inc
2334 Marie-Victorin, Varennes, Quebec, J3X 1R4

Tel.: +1 450-929-1933

Tel. in case of emergency: +1 450-929-1933 / +1 514-242-4215

2. HAZARDS IDENTIFICATION

Product Classification

Category 2 Serious eye damage/eye irritation.

Pictograms

Warning message

DANGER

Hazards Information

Causes severe eye irritation.

May cause irritation of the skin or respiratory tracts.

Safety advice

Prevention: obtain instructions before use.

Do not handle this product before reading and understanding the security precautions. Wash your hands after each use. Wear protective gloves and eye protection.

Intervention: IN THE EVENT OF CONTACT WITH SKIN:

Rinse skin with water.

IN THE EVENT OF CONTACT WITH THE EYES: carefully rinse with water for several minutes. Check for and remove any contact lenses. If irritation persists, get medical attention.

IN CASE OF EXPOSURE – PROVEN OR SUSPECTED: get medical attention.

IN CASE OF FIRE: use the carbon dioxide (CO₂) or the dry chemical powder for extinction.

Storage: store in a cool and well ventilated area. Keep cool.

Disposal: the content or the recipient must be disposed of in accordance with the recommendations of the regional office responsible for environmental legislation.

Other dangers: N/A

3. COMPOSITION AND INFORMATION ON INGREDIENTS

Ingredient	CAS Number
Water	7732-18-5
Sodium benzoate	532-32-1
Potassium sorbate	24634-61-5
Citric acid	77-92-9
Hydrolyzed collagen (beef)	9007-34-5
beef natural flavor concentrate	N/A

4. FIRST AID MEASURES

Inhalation: if inhaled (vapors), remove to fresh air. If not breathing, give artificial respiration. Get medical attention.

Skin contact: flush the skin with water.

Eye contact: immediately flush eyes with plenty of water for at least 20 minutes. Check for and remove any contact lenses. If irritation persists, get medical attention.

Ingestion: if ingested, rinse the mouth. Do not induce vomiting. Never give anything by mouth to an unconscious person or during convulsions. Get medical attention.

Severe symptoms and effects: if inhaled: the symptoms may include effects on the central nervous system: headaches, dizziness, nausea and vomiting. The vapors of this product may cause irritation to the upper respiratory tract. On the skin: the product may cause irritation. In the eyes: this product is an irritant and may cause damage to the cornea.

Mention of the necessity of immediate medical attention and special treatment: does not apply.

5. MEASURES TO BE TAKEN IN THE EVENT OF A FIRE

Appropriate extinction agents: carbon dioxide (CO₂), water spray and dry chemical powder, alcohol foam.

Specific hazards of the product: Irritant.

Dangerous products of combustion: carbon monoxide and carbon dioxide.

Special protective equipment and special precautions for firemen: wear self-contained breathing apparatus and protective clothing that covers the entire body. Remove the containers from the danger zone when it is possible to do so safely. Cool containers that have been exposed to flames with jets of water. Contain contaminated water to avoid contaminating surface waters and sewers.

6. ACCIDENTAL RELEASE MEASURES

Individual precautions, protective equipment and safety measures: use the appropriate personal protection equipment: respiratory equipment, wear suitable protective clothing, gloves and eye protection (see section 8). Evacuate personnel out of the contaminated area. Eliminate all sources of heat and ignition. Equipment used to manipulate this product must be grounded and bonded. Reduce the vapor concentration with water spray.

Methods and materials for storage and cleaning: ensure adequate ventilation. Absorb or cover with dry earth, sand or any other absorbent non-combustible and non-toxic product and place in an identified airtight container. Avoid getting product in the plumbing. Waste must be disposed of in accordance with local regulations.

7. HANDLING AND STORAGE

Security precautions when handling the product: do not eat, drink or smoke in the work area. Wash hands after using. Avoid contact with skin and eyes. Use only in an adequately ventilated area. Have safety showers and eyewash fountains available in areas where the product is frequently used.

SAFETY DATA SHEET (SDS)

COLLAGENE Land Art Liquid 500ML for dogs and cats

NN.V1S4

Security conditions for storing the product: store in an airtight in a cool, dry and well ventilated area, away from all sources of heat or ignition.

Incompatibilities: none.

8. EXPOSURE - PERSONAL PROTECTION/CONTROLS

CONTROL PARAMETERS:

Professional exposure limits: N/A

Engineering controls: provide adequate ventilation, by natural or mechanical methods, in order to respect exposure limit values. Use fireproof electrical equipment.

Individual protection measures: when engineering measures and work method changes are insufficient to reduce the exposure to this product, wearing appropriate individual protective equipment may be necessary. Respiratory tract: wear suitable respiratory equipment approved by NIOSH if the concentration levels in the work area are superior to professional exposure limits. Skin: wear gloves and skin protecting equipment appropriate for the work involved. Eyes: when there are splash risks, airtight safety goggles (indirect vent or closed vent) or a face shield is recommended. This protective equipment must comply with current regulations.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Orangy-brown liquid

pH: 4.0 - 5.0

Density (kg/L): 1.100

Solubility (in water): miscible

Olfactory threshold: N/A

Fusion point/freezing point: N/A

Boiling point: N/A

Flashpoints: N/A

Evaporation level (ether = 1): N/A

Flammability (solids and gases): N/A

Lower explosive limit: N/A

Upper explosive limit: N/A

Vapor tension: N/A

Vapor density: N/A

N-octanol/water partition coefficient: N/A

Self-ignition temperature: N/A

Decomposition temperature: N/A

Kinematic viscosity: N/A

10. REACTIVITY AND STABILITY DATA

Reactivity: this product is stable within normal usage conditions. It is not pyrophoric or reactive to water. It is not an oxidizing agent.

Chemical stability: this product is stable within normal usage conditions.

Dangerous reactions risks: hazardous polymerization or reactions do not occur within normal usage conditions.

Conditions to avoid: heat, flames and sparks. There is currently no data to suggest that this product is sensitive to impacts.

Incompatible materials: this product is not corrosive to metals.

Dangerous decomposition products: carbon monoxide, carbon dioxide.

11. TOXICOLOGICAL DATA

Routes of entry: this product is absorbed by inhalations, ingestion and by the skin.

Severe toxicity:

Chemical Name	CL50 (g/m ³ /4h)	DL50 oral g/kg	DL50 skin g/kg
Sodium benzoate	N/A	N/A	N/A
Potassium sorbate	N/A	N/A	N/A
Citric acid	N/A	5.04g/k g mice	
Hydrolyzed collagen (beef)	N/A	N/A	N/A
beef natural flavor concentrate	N/A	N/A	N/A

Skin irritation and corrosion: this product may be slightly irritating to the skin.

Irritation and eye injury: this product is an acute irritant in the eyes that may cause irreversible damage to the corneas. Exposure to the vapors of this product causes irritation for the eyes.

Respiratory or skin sensitivity: there may be respiratory or skin sensitivity.

Toxicity in certain organs: inhaling large concentrations of this product may cause depression of the central nervous system: headaches, dizziness, nausea and vomiting. It may also cause irritation of the upper respiratory tract.

Carcinogenic nature: no evidence

Toxic to reproduction: no evidence

Mutagenic effects: no evidence

12. ECOLOGICAL DATA

N/A

13. DISPOSAL CONSIDERATIONS

N/A

14. TRANSPORT INFORMATION

N/A

15. OTHER REGULATORY INFORMATION

N/A
