ALOE VERA
AGE-OLD BENEFITS

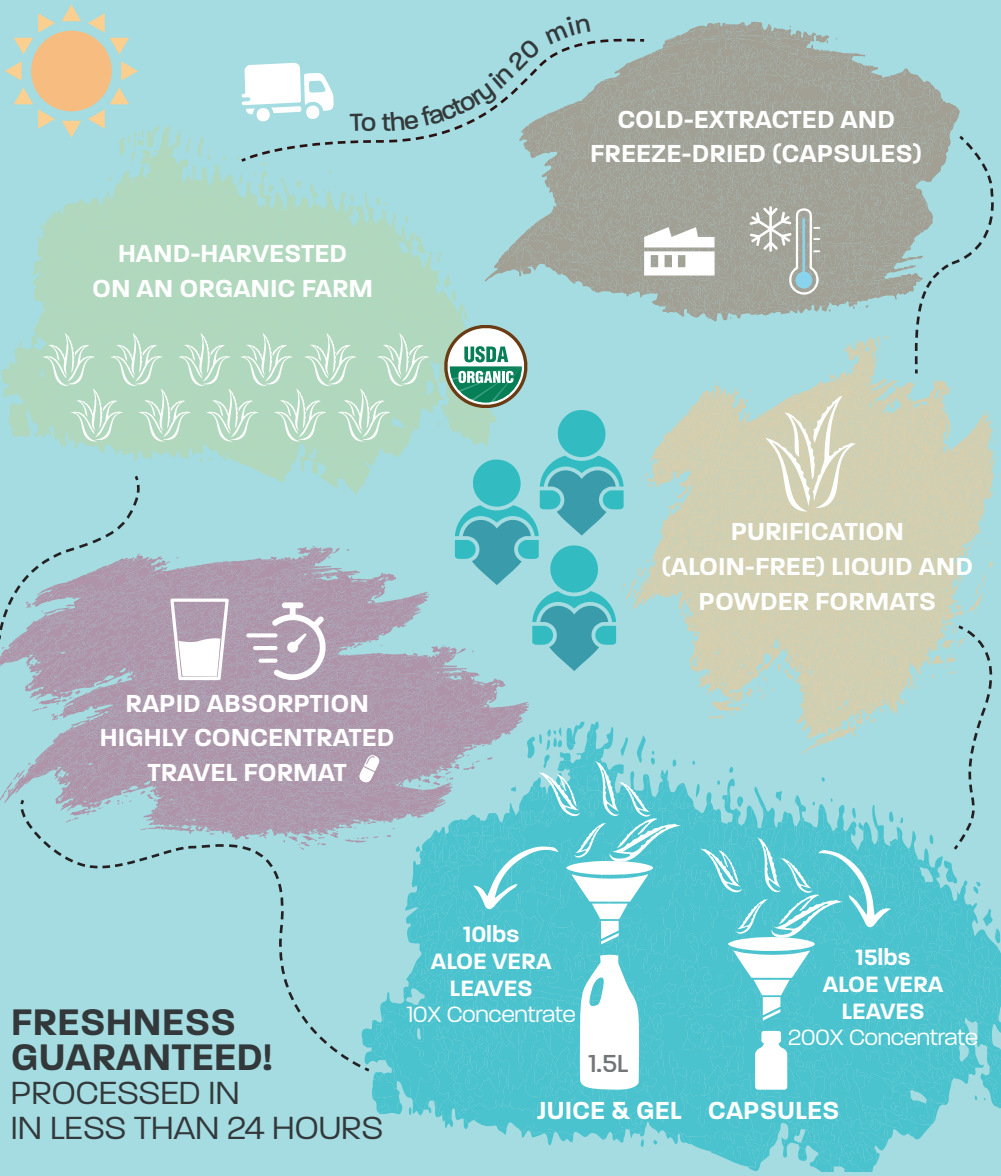

For over 5,000 years, the Egyptians have used Aloe Vera as a medicinal plant for its healing and moisturising properties, both externally and internally.
Its gel is applied to the skin to relieve burns, itching and dryness, while consuming it internally relieves gastrointestinal irritation and inflammation.

ALOE VERA CONTAINS OVER **75 NUTRIENTS!**

LAND ART'S ALOE VERA FROM THE ORGANIC FARM TO YOUR DIGESTIVE HEALTH

At Land Art, the quality of our Aloe Vera starts at the source:
A single farm, located in South Texas, fully certified organic.
Hand-picked every morning at optimum maturity (after more than 3 years of growth), the leaves are transported to the processing site in just 20 minutes.
This ultra-fast processing, combined with cold extraction, preserves all the plant's natural enzymes and nutrients.

THE BENEFITS OF ALOE VERA FOR THE DIGESTIVE SYSTEM

Soothes pain and reduces inflammation

Aloe vera gel contains anti-inflammatory compounds that can help soothe irritated mucous membranes in the stomach and intestines, particularly in cases of gastric reflux, gastritis or irritable bowel syndrome (IBS).

Stimulates mucosal repair

Thanks to its polysaccharides, such as acemannan, aloe vera stimulates the fibroblasts that produce collagen to repair tissue. Bradykinase and aloe vera glycoproteins reduce inflammation, promoting rapid healing.

Helps regulate transit

The inside of the aloe vera leaf acts as a natural regulator of intestinal transit, relieving both constipation and episodes of diarrhea thanks to its balancing effect.

Supports intestinal flora

By promoting the growth of good intestinal bacteria, aloe vera contributes to a healthier microbiota, essential for efficient digestion.

ALOE VERA LAND ART

Our Aloe Vera, whether in gel, juice or capsule form, is your best ally against digestive problems.

ALOE VERA DRINKABLE GEL, JUICE OR CAPSULES : **WHAT'S THE DIFFERENCE?**

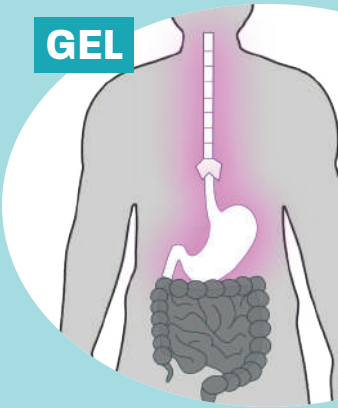

All contain a high concentration of aloe vera, but differ in texture and use.

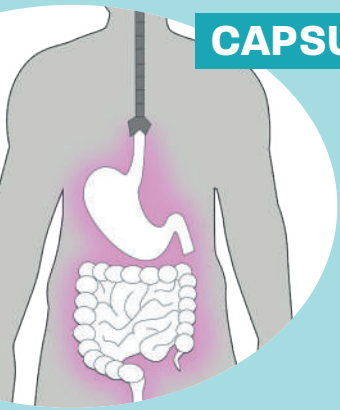

JUICE

The juice, more fluid, promotes intestinal health by reducing inflammation and repairing mucous membranes. It is recommended for people suffering from intestinal problems such as irritable bowel, bloating and irritation.

GEL

The gel, thicker thanks to xanthan gum, adheres to digestive walls, soothing reflux and heartburn. Recommended for heartburn and acid reflux sufferers.

CAPSULES

The capsules, based on concentrated powder (200X), do not act on the esophagus, but dissolve quickly to act in the stomach and intestines.
The fast-dissolving pullulan capsule has been formulated for optimum efficacy.
They are recommended for people suffering from heartburn, gastric reflux and intestinal problems (irritation, inflammation).

TAKE THEM ACCORDING TO YOUR TASTES AND YOUR HABITS!

ALOE VERA JUICE

Land Art's aloe vera juice is easy to consume on a daily basis, and is a natural part of your wellness routine. Ideally, drink it **before your biggest meal** of the day if you suffer from bloating due to your diet, and in **the morning** to help regulate your digestive system.

Wellness tip : To optimize its benefits, combine aloe vera juice with good hydration throughout the day and a balanced diet.

ALOE VERA GEL

Our drinkable aloe vera gel has a slightly thicker texture than juice, making it an ideal option for soothing the esophagus and stomach.
Thanks to its richer consistency, the gel naturally coats the digestive walls, providing a soothing and restorative effect for irritated or sensitive mucous membranes.

Important : The gel must not be diluted to retain its wall-coating and optimum effect.
Take directly, without mixing, before meals.

Pure by the spoonful

ALOE VERA CAPSULES

Convenient and easy to incorporate into your routine, Land Art's aloe vera capsules are ideal for those who prefer a taste- and texture-free option. They're also perfect for people on the move or traveling.

Take 1 capsule a day with water, preferably before meals. They are suitable for both occasional use (3 to 4 weeks) and prolonged use, depending on your needs.
